A FLOATING PRISON.

A Russian Steamer's Long Voyage With Over 400 Prisoners on Board.

From the St. Petersburg Golos.

On April 14 the steamer Nijny-Novgorod, loaded with criminals and provisions, left Odessa for the island of Saghalien. On the steamer there are 400 male prisoners, eight female prisoners, twenty-seven women voluntarily accompanying their condemned husbands, two men accompanying their condemned wives, and sixty-four children. The Archbishop of St. Petersburg performed the solemn thanksgiving service, and prayer was offered for the long life of the reigning family and of those sailing away. The Archbishop addressed the women, blessed them, and besprinkled them with holy water; then the male prisoners were brought up, and in their turn received the word of encouragement and hope. Many of the prisoners wept.

The male prisoners are placed in four departments, one hundred men in each, and the women in two rooms. There are two hospitals, for males and females, a drug store and a chapel. There are two surgeons, one priest, four officers of the interior, and a gentleman and his wife to look after the conduct of the prisoners. It is said that the prisoners will receive the same food as the crew, to wit, tea at breakfast, soup and meat at dinner, gruel at supper. All the prisoners are in chains, but when well out at sea will be unchained—at least those of them who behave well. The children and the persons going voluntarily to the island enjoy full freedom. The cargo of the steamer amounts to 72,000 pounds, or 2,880,000 pounds—50,000 pounds of grain, and the rest old iron rails to be used for the construction of the horse railroad on Saghalien, from the port to the principal prison in the central part of the island. Fifty-four soldiers perform guard duty.

Last year the Nijny-Novgorod performed the same journey in fifty-two days. Though it was a great success as regards the health of the prisoners, still it is found necessary now to take one hundred fewer than last year. The steamer is painted white, and displays the imperial Russian war flag.

Indian Outrages in Arizona.

TUCSON, May 12.—Advices just received from Silver City up to Friday last state that the excitement in that section over the Indian troubles is great. Large numbers of Apaches have joined Victorio's band from the New Mexico reservation, and it is thought he has been also reinforced from the San Carlos reservation in Arizona, and is degrading extensively through the Eastern portion of Grant county. A number of citizens and settlers have been killed, and, in many instances, horribly mutilated. The citizens have taken up arms and are scouring the country vigorously in search of the marauders.

Watches and Jewelry of all kinds repaired at New York prices, and warranted for twelve months by Geogel on Virginia street. Febd.

Horsemen Attention. The undersigned has opened a Breeding and Training Stable at the Fair grounds, where he will be prepared to handle Trotting horses, having along experience in the East and highly recommended on this coast and known to many horsemen here, having won four races with one stable of horses at the fair here last fall. Satisfaction guaranteed and charges reasonable. M. J. TRACY. Reno, April 1st, 1880.—1.

The making of Masonic marks a specialty at DeBell's. Apr 13.

All persons indebted to L. Fredrick, for more than six months, are earnestly requested to pay their bills. Mar 1.

If you want good, cheap for little money ask DeBell for it. Mar 1.

Davidson, the jeweler, is a good one. Mar 1.

Special Bargains.

Linen Suits for three dollars worth fifteen; something inconceivable; yet strictly true. All our dress goods, fancy goods, cloaks, ulsters and ladies' and children's underwear, at such low figures as Reno has never seen. To my carpets, oil cloth, and wall paper, I call special attention. My stock of goods as a whole, for assortment and style, has never been surpassed. I most respectfully invite the ladies of Reno to call and examine for themselves.

ISAAC BARNETT.

Vick's Seeds.

Pinniger & Queen have received a large lot of Vick's flower and vegetable seeds, floral sets, alfalfa, timothy, lawn grass, blue grass, white and red clover, onion sets, etc., all of which will be sold at lowest market rates. All who wish fresh and reliable seeds are invited to call and examine. Feb 16.

The Great Desideratum found at last. Castor oil is a pleasurable. Parry's palatable CASTOR OIL is equal in medicinal activity to the ordinary unprepared Castor Oil, but has a pleasant in place of a nauseous taste. It is easily taken and retained by the stomach, even of delicate persons. Children take it readily and make no fuss about it. Osburn & Shoemaker, Agents for Washoe County. Apr 17.

C. J. Brookins is agent for all the leading styles and makes of pianos and organs. He guarantees to sell at Eastern prices, on \$10 monthly stumps. Pianos and organs to rent. Apr 13.

THE SHERIFF'S SALARY.

The Clerk's and Auditor's salaries are none too high. The Sheriff's is too low. It is good policy to pay men well for their work. A man capable of filling the office of Recorder of Clerk is cheap at two hundred dollars a month. Rail-road and express companies may be doing similar work no higher, at two hundred and fifty. The Journal is right in saying that the county officers should not make a fortune out of one term, but they should be paid fairly for their work, as an inducement to do it well and faithfully. The law says nothing about a jailor. If the Sheriff has to pay him, it will take one hundred dollars per month of his salary. He must keep a horse and buggy at a cost of thirty-five. His traveling expenses will run up to twenty-five, and other expenses will bring him down to very small figures. Considering the dangers of the life of Sheriff, the risks he runs in handling the property of insolvents and bankrupts, the arduous nature of the work, we think he should have three thousand dollars and his expenses, and we believe it would be economy on the part of the county to pay it. We would be glad to hear from citizens on the subject.

EVOLUTION A FACT.

The opposition to the theory of evolution is gradually dying out. Indeed many scientists look upon evolution no longer as a theory but as a law. Prof. Huxley, in a lecture recently delivered in London, thus declares his belief in it, according to the Standard. The fact was that the doctrine of evolution was no longer a matter of speculation; it was an absolute fact. The fact was there was no other supposition which could connect the facts revealed by recent discoveries except that which we call evolution. He might be told that these various objects might have been developed spontaneously and created spontaneously. He had nothing to say to anyone who advanced that theory any more than he should have anything to say to the savage who said that the sun set in the west at night and was recreated before its rising next day.

THE CALIFORNIAN

The Californian for June is an interesting number. This magazine is one of the most readable monthlies published. The following is the table of contents for the June number: The Interoceanic Canal and Geographical Congress; Ferdinand de Lesseps; A Practical View of the Indian Problem; Guy Howard; Shoshonea; Joaquin Miller; Sand; Chapter VI; F. W. Galley; The Hawaiian Islands; T. M. Davidson; The Nemesis of Fraud; M. Howland; A Summer in the Saddle; Charles H. Shum; The Nest in the Oak; S. E. Anderson; Notable Autographs; Pourquoi; Garnetia; Mary W. Glascott; A. Cycle; Millicent W. Shin; Shelly and the Revolution; Josiah Royce; A. Duet in the Backwoods of Alabama; James Wilton; The Unchained in the Market-place; Margaret A. Brooks; Our Schools; Henry M. Fisk; A Visit to the Southwest of Crocodile Caves; E. W. Pease; etc.

WHO ARE CANDIDATES.

The people of this state should have ample time to choose their men for Senator, and the men who feel it their duty to succeed Mr. Sharon, should announce themselves as candidates. Republicans are very likely to take this matter out of the hands of the legislature, as far as possible, and settle it at the polls, so that the men who think of coming in at the last moment as dark horses, may not find any one to groom them. There are several gentlemen whose names have been mentioned, but as far as the public can judge, only one has authorized the announcement. Let the candidates come out like men and stand upon their merits.

EDITORIAL NOTES.

The instructions given the Nevada delegation to continue to vote for Blaine as long as his name shall be before the Convention, are in our opinion a mistake. There might arise an occasion when the Nevada vote would be of no service to Blaine and might, if judiciously cast, prevent the Pacific coast from accepting a candidate identical to their interests. It is to be hoped that the placing of our delegates in the attitude of mere machines, may not prove disastrous to our interests as a State. —Carson Appeal.

box done up in brown paper. He opened it with his pocketknife, when an explosion occurred. No one was injured, but the package proved to be an infernal machine evidently designed to kill the Consul. It is supposed to be the work of Cubans, although it is difficult to see how the cause of Cuban independence can be aided by blowing up Spanish consuls. The Cubans must be imitating the Russian nihilists.

The men who are putting up Bosch's building on Commercial Row have torn up the pavement and left it in a very bad condition. On one side a space 8 or 10 feet is left entirely open, on the other a few loose pieces of 2x4 scantling are laid down for people to fall over. The street should be put in order at night and on Sunday. No work has been done there for a week, and all this time the pavement has been torn up and left open.

The House Mining Committee has adopted the bill agreed upon by the Pacific Coast delegation, the purpose of which is to provide for the location of flat lodges and exempt from the square location system all veins having a greater dip than 25 degrees. Representative Belford was authorized to report it for passage by a practically unanimous vote of the committee.

There is no prospect of the passage by the present Congress of the Fifteen-Passenger Act to restrict Chinese immigration. The appointment of a Commission to China has indefinitely postponed action in the matter. Chinese diplomacy is very slow, and there appears to be little likelihood that the Chinese question will be disposed of very soon.

At the General Conference of the Methodist Episcopal Church, which convened at Cincinnati on May 1, the quadrennial address of the Board of Bishops was read by Bishop Simpson. A review of the past four years showed that the Methodists had erected one new house of worship for every day of that period.

The Portland, Me., Advertiser says: In an interview with E. B. Washburn, who is visiting his brother-in-law, he states that his candidacy for the Presidency is out of the question. He is for Grant first, last and all the time, repudiates all combinations with other candidates, and will not be a candidate under any circumstances.

The miners are right in refusing to come down. Any departure from the Union rate (\$4 a day) on the pretext of mining for low grade ores, or on any pretext whatever, will result in the disruption and disorganization of the Miners' Union itself. —Eureka Sentinel.

Very few people would regard that as a calamity to the State.

The New York Tribune's table gives the candidates up to the present time, the following votes: Grant, 228; Blaine, 279; Sherman, 96; Edmunds, 84; Washburn, 12. Necessary for a choice, 379. To be still selected, 108.

The dates of the six Republican State Conventions yet to be held are as follows: Illinois, Minnesota and Nebraska, May 19; Alabama, May 20; Louisiana, May 24; Colorado, May 25.

The settlers on the railroad lands in Tulare have appointed a committee to effect a compromise with the Railroad Company. There will probably be no more bloodshed.

The heaviest theft of the season has been made in San Francisco. A man was arrested there on Thursday for stealing a safe worth \$125 from the Russ House.

President Hayes, "the boomless one," makes the unnecessary declaration that he would not accept a second term under any circumstances.

The nomination of Gen. Grant does not now seem a possible result, the New York Tribune says.

The assessments on the Chinook mines have averaged about \$7,000,000 per year for the past three years.

A Sonoma paper refers to salmon as the "red rustlers." This is the most outrageous slang of the season.

Prospecting the Ute Reservation.

It is learned that a powerful secret organization has been formed with headquarters in Denver, whose object is to go to the Ute Reservation to prospect without waiting for Congressional action. The Society has already 150 members, including several prominent Denver citizens, each member to arm and equip himself for military service. They intend to go through the Gunnison and Eagle River countries to the Rio Grande, and unless protection is afforded by the Government, will wage war against the Utes.

John P. Wheeler, the Mendocino outlaw, was sentenced to death on Thursday. He will be executed on Friday, July 2, at Ukiah.

PACIFIC COAST NEWS.

No money in the Carson City treasury.

A lemon 15 $\frac{1}{2}$ inches in circumference was shown at the late Los Angeles fair.

The Free Press says that if 100 people die in Bodie this season the funeral expenses will amount to \$15,000.

The Standard says: The assessments on nine claims in Mono county this month will amount to \$171,000.

The Water of Mono Lake is so buoyant that a man cannot sink in it. The lake contains no fish or any living thing.

At Ogden, Utah, last Monday, a slave named Ammon Pitkin was sentenced to twenty years' imprisonment for the commission of incest.

Last Tuesday at Grass Valley, in St. Patrick's Cathedral, two young ladies; Miss Annie Coleman and Miss Marie Brown, took the white veil.

A lady was knocked over at the I. O. O. F. picnic at San Rafael, Monday, by a lad in a swing, and it is reported that she has since died of the injury.

There are nine warrants out against people who have sold whiskey to Indians in this vicinity," says the San Bernardino Times, "but owing to the U. S. Marshal not having received any pay for months, they cannot be served."

A young man of Coos Bay, by the name of Ingerson, lately came to grief by being arrested and confined in jail for digging open graves and stealing the valuables that, by the custom of the red men, are buried with their owners.

The Bodie Free Press is not in favor of divorces, but says when a wife enters a saloon and pulls her husband out by the ear when he has but one point to go in a six-handed game of poker, legal proceedings may be commenced.

The Stockton Independent says that Walter H. Crow, one of the men who had purchased from the Railroad company, and who was killed by the Hand-leader Tuesday, was well-known in Stockton. He was brave and fearless, as was also Hartt, the man who was with him.

A party of mining men from San Jose, Cal., have arrived at Winnemucca with supplies for a summer's work on Willow Creek, in the northern part of the county. Some members of the party visited the district a year ago, and located several mines, one or more of which they intend developing this summer.

Justice has suspended operations till such time as Alta runs the south drift 85 feet further on the 1,950-foot level to the Justice line, when prospecting will be resumed on that level. Reliable reports from Ophir say that in the north drift from the east drift on the 2,500-foot level, a streak of rich ore, 12 to 15 inches wide, has been struck.

A. W. Wilsey of Petaluma, who died twice two months ago that he would die on the 1st of May, joined the Ancient Order of United Workmen and the Knights of Honor, and then died as he had dreamed, and his family will scoop in \$4,000, at a cost of about \$35. It is now believed that he committed suicide, and his body has been exhumed for proof.

The Southern Pacific Railroad has completed 48 miles of its steel track beyond Tucson. During the month of April just passed the city of Los Angeles shipped direct to Tombstone 98,300 pounds of freight, mostly fruit, grain, butter, cheese, honey and eggs. It is estimated that the trade between Arizona and Los Angeles county at the present time averages more than \$150,000 a month.

The Eldorado Republican, speaking of the snow belt of that county, says: Most of those who have wintered within the snow belt of this county during the past winter, have had a dismal time of it. We hear of some who had delayed getting in their needed quota of provisions until they were prevented getting out by the snow, and have been grinding wheat in coffee mills for weeks, as their flour had given out.

The Sedalia Redoubt Process.

A private company of New York capitalists has been organized to test on a grand scale in New Mexico the Sabilat method of refractory ore reduction by treating with sulphuric acid. This newly discovered method has been tried, it is claimed with great success, in Europe, and its backers assert that the most refractory and obstinate ores can be reduced by it at a cost not exceeding \$5 per ton.

President Hayes, "the boomless one," makes the unnecessary declaration that he would not accept a second term under any circumstances.

The nomination of Gen. Grant does not now seem a possible result, the New York Tribune says.
